SUMMARY

Backend developer with 3+ years of software development (since Sep 2023), building .NET services at Con Cung since Nov 2023: voucher and subscription APIs on SQL Server, Dapper and stored procedures, Keycloak OAuth 2.0 / OIDC security, ERP integration. Portfolio: an idempotent .NET 8 API with RabbitMQ, Polly and 42 xUnit tests.

WORK EXPERIENCE

Full Stack Developer | Con Cung — Nov 2023 – Present

Vietnam's mother-and-baby retail chain. Tech: .NET, AngularJS, SQL Server, Dapper, Keycloak, Docker, IIS, n8n

- Delivered .NET voucher APIs (search, create, update) with permission checks, promotion validation, pre-batch Excel preview.
- Implemented 7 subscription benefit calculations (3/6/12-month plans), mapping stored procedures to typed Dapper models.
- Implemented Keycloak JWT / OAuth 2.0 / OIDC auth and role-based authorization; supported Docker and IIS deployment.
- Fixed SQL Server / Dapper retrieval defects and verified ERP API request and response mappings.
- Designed retail data structures for shelves, facings and display groups used in store-layout optimization.
- Applied vector semantic search in a commerce portal; built n8n competitor-scraping and market-intelligence pipelines.
- Built a preview-and-copy tool for 4 generated code-template types: controller, repository, view and script.
- Used Custom GPTs, prompt engineering and a Claude + Agent Skills + MCP loop to speed up debugging and testing.

Frontend Intern | FPT — Sep 2023 – Nov 2023

- Developed Angular / JavaScript components, integrated e-commerce REST APIs and fixed mobile UI defects.

PROJECTS

Partner Integration BFF | Take-home project | .NET 8, RabbitMQ, Polly, xUnit — github.com/tvt987/partner-integration-bff

- Built a partner-transaction API with API-key auth, idempotency on partner and transaction reference (202 replay, 409 conflict) and RabbitMQ queuing; wrapped a verifier that times out on ~30% of calls in Polly retry and timeout.
- Wrote 42 xUnit tests, incl. concurrency (a duplicate payload is published once) and WebApplicationFactory endpoint tests.
- Packaged the API, verifier and RabbitMQ in Docker Compose with health checks, FluentValidation and ProblemDetails errors.

Layout-Store | Contributor | C#, ASP.NET Core, Dapper, PostgreSQL — github.com/tvt987/Layout-Store

- Contributed 10 ASP.NET Core routes for search, CRUD, approval and Excel import, calling PostgreSQL stored procedures through async interfaces and dependency injection.

Retail Reliability Lab | AI-assisted lab, no public repo | FastAPI, Redis, SQLite

- Validated Redis cache-aside (60-second TTL, invalidation, outage fallback) in 22 API and cache tests on real Redis.
- Cut median SQLite lookup 3.63 → 0.005 ms (200 queries, 100,000 synthetic rows); wrote undeployed Compose/Azure templates.

Other projects: Support Ticket AI Triage (FastAPI LLM triage, validated outputs, rules fallback, human review); Retail RAG Assistant (FastAPI, TF-IDF / Qdrant, LangChain, groundedness eval); Ecommerce-Admin (Angular 19 search-admin screens with RxJS and NgRx SignalStore).

TECHNICAL SKILLS

Backend: C#, .NET 8, .NET Core, ASP.NET Core, Web API, RESTful API Design, Dapper, Entity Framework Core (EF Core), LINQ
Data: SQL Server, PostgreSQL, Stored Procedures, Database Design, Query Optimization, Indexing, Redis, MySQL
Integration: RabbitMQ, Message Queues, Microservices, Idempotency, Polly, FluentValidation, ERP API Integration, Swagger/OpenAPI
Security: Keycloak, JWT, OAuth 2.0, OpenID Connect, Claims, RBAC
Testing & DevOps: xUnit, Moq, Unit Testing, Integration Testing, Docker, Docker Compose, IIS, CI/CD, GitHub Actions, Git, Git Flow
Engineering: OOP, SOLID, Design Patterns, Dependency Injection, Repository Pattern, Clean Architecture, Performance Optimization
Frontend: Angular, AngularJS, TypeScript, JavaScript, RxJS, React, HTML5, CSS3, Tailwind CSS
AI-assisted dev: LLMs, Prompt Engineering, Custom GPTs, AI Agents, Agent Skills, MCP, Claude, Cursor, GitHub Copilot, n8n, OpenClaw
Other: ASP.NET MVC, Logging, Observability, Debugging, Azure, AWS, Python, FastAPI, Node.js, Java Spring Boot
Practices: Agile/Scrum, Code Review, Technical Documentation, Problem Solving, Cross-team Collaboration, Communication

EDUCATION

University of Information Technology (UIT), VNU-HCM | Information Technology | Graduated 2026
Languages: English (good reading and writing of technical documents; basic spoken communication)
