Truong Van Tinh

Backend Developer | C# / .NET
0931467024 | tinhkun102@gmail.com
Target location: Ho Chi Minh City, Vietnam | GitHub code repository: github.com/tvt987

Professional Summary

Backend Developer with 3+ years of software development experience. Builds .NET web applications at Con Cung with SQL Server/Dapper, ERP integration and Keycloak. Portfolio API development covers 10 ASP.NET Core/PostgreSQL routes, async data access and dependency injection.

Work Experience

Full Stack Developer | Con Cung

Nov 2023 – Present

- **Delivered .NET voucher** APIs for search, creation and updates; added promotion validation and Excel preview before batch creation.
- **Implemented typed Dapper** mappings for SQL Server stored-procedure results across 3-, 6- and 12-month subscription plans.
- **Resolved SQL Server/Dapper** retrieval defects and verified ERP API mappings.
- **Implemented Keycloak JWT/OAuth** 2.0/OIDC authentication and role-based authorization for application actions.
- **Built a preview/copy** tool for 4 generated template types: controller, repository, view and script.

Frontend Intern | FPT

Sep 2023 – Nov 2023

- **Developed Angular/JavaScript components,** integrated e-commerce APIs and corrected mobile UI defects.

Projects

Layout-Store | C#, ASP.NET Core, Dapper, PostgreSQL, Angular | *Contributor*

- **Contributed to 10** ASP.NET Core/PostgreSQL routes covering search, CRUD, approval and Excel import.
- **Connected HTTP handlers** to stored-procedure access through async interfaces and dependency injection.

Ecommerce-Admin | C#, Angular, PostgreSQL, REST APIs | *Frontend/API integration*

- **Integrated authenticated REST** APIs and PostgreSQL data contracts with Angular admin screens.

Support Ticket AI Triage | Python, FastAPI, SQLite, Docker | Personal project

- **Built FastAPI automation** for 5 ticket categories with validated outputs, contact masking, protected review and LLM-failure fallback.
- **Tested 10 HTTP** scenarios with mocked LLM responses; GitHub Actions CI passed on main.
- **Validated 1,000 synthetic** SQLite review decisions; duplicate IDs were rejected without overwriting existing records.

Retail Reliability Lab | FastAPI, Redis, SQLite, Azure | AI-assisted lab

- **Validated Redis cache-aside** with a 60-second TTL, invalidation and outage fallback; passed 22 local API/cache tests against real Redis.
- **Reduced local SQLite** median lookup from 3.63 to 0.005 ms (200 queries; 100,000 synthetic rows). Authored undeployed templates for Docker Compose and Azure.

Skills and Technologies

Backend: C#, .NET, ASP.NET Core, ASP.NET MVC, Entity Framework / EF Core, Dapper, LINQ, Web API, REST API Design, Message Queues; Additional stacks: Node.js, Java Spring Boot
Data: SQL Server, PostgreSQL, MySQL, Redis, Database Design, Stored Procedures, Query Optimization, Indexing
Security: Keycloak, JWT, OAuth 2.0, OpenID Connect, Claims, RBAC
Engineering Knowledge: OOP, SOLID, Design Patterns, Dependency Injection, Repository Pattern, Clean Architecture, Microservices, Debugging, Performance Optimization
Testing and DevOps: Unit Testing, Integration Testing, Logging, Observability, Azure, AWS, Docker, CI/CD, IIS, Git (version control), Git Flow, Swagger/OpenAPI
Frontend Integration: Angular, AngularJS, TypeScript, JavaScript, RxJS, React, HTML5, CSS3, Tailwind CSS
AI-assisted Development Tools: LLMs, Prompt Engineering, Custom GPTs, MCP, AI Agents, Claude, Cursor, GitHub Copilot, n8n, OpenClaw, Agent Skills
Practices: Agile/Scrum, Code Review, Communication, Problem Solving, Cross-team Collaboration, Technical Documentation

Education

University of Information Technology (UIT), VNU-HCM | Information Technology | Graduated 2026
