PROFESSIONAL SUMMARY

Backend developer with 3+ years of software development experience. Builds .NET applications at Con Cung with SQL Server, Dapper, Keycloak and ERP integrations. Portfolio APIs cover 10 ASP.NET Core / PostgreSQL routes with async data access and dependency injection.

WORK EXPERIENCE

Full Stack Developer at Con Cung

Nov 2023 – Present

Vietnam's mother-and-baby retail chain · .NET · AngularJS · SQL Server · Dapper · Keycloak · ERP integration

- Delivered .NET voucher APIs for search, creation and updates with permission checks, promotion validation and pre-batch Excel preview.
- Designed retail data structures for shelves, facings and display groups behind store-layout optimization.
- Mapped SQL Server stored procedures to typed Dapper models for 7 subscription benefit calculations across 3-, 6- and 12-month plans.
- Fixed Dapper retrieval defects and verified ERP API request and response mappings.
- Implemented Keycloak JWT / OAuth 2.0 / OIDC authentication and role-based authorization; supported Docker and IIS deployment.
- Added vector semantic search to a commerce portal; built n8n competitor-scraping pipelines and a Claude + MCP debug loop.
- Created a preview and copy tool for 4 generated template types: controller, repository, view and script.

Frontend Intern at FPT

Sep 2023 – Nov 2023

- Developed Angular / JavaScript components, integrated e-commerce REST APIs and fixed mobile UI defects.

PROJECTS

Partner Integration BFF TAKE-HOME PROJECT · .NET 8, RabbitMQ, Polly, FluentValidation — github.com/tvt987/partner-integration-bff

- Built a .NET 8 partner-transaction BFF: API-key auth, FluentValidation, idempotency (202 replay / 409 conflict), RabbitMQ.
- Added Polly retry/timeout around a flaky verification API, ProblemDetails errors, unit and WebApplicationFactory integration tests.

Layout-Store CONTRIBUTOR · C#, ASP.NET Core, Dapper, PostgreSQL — github.com/tvt987/Layout-Store

- Contributed 10 ASP.NET Core / PostgreSQL routes for search, CRUD, approval and Excel import, with HTTP handlers wired to stored procedures through async interfaces and dependency injection.

Support Ticket AI Triage PERSONAL PROJECT · Python, FastAPI, SQLite, Docker — github.com/tvt987/support-ticket-ai-triage

- Built FastAPI triage automation for 5 ticket categories: validated outputs, contact masking, protected review, LLM-failure fallback.
- Tested 10 HTTP scenarios with mocked LLM responses; validated 1,000 synthetic SQLite review decisions, duplicate IDs rejected without overwriting existing records; CI green on main.

Retail Reliability Lab AI-ASSISTED LAB · FastAPI, Redis, SQLite, Docker Compose, Azure

- Validated Redis cache-aside with a 60-second TTL, invalidation and outage fallback; 22 API and cache tests on real Redis.
- Cut median SQLite lookup 3.63 ms → 0.005 ms (200 queries, 100,000 synthetic rows); authored Docker Compose and Azure templates.

Ecommerce-Admin FRONTEND / API INTEGRATION · C#, Angular, PostgreSQL, REST APIs — github.com/tvt987/Ecommerce-Admin

- Integrated authenticated REST APIs and PostgreSQL data contracts with Angular admin screens.

SKILLS AND TECHNOLOGIES

Backend	C#, .NET, ASP.NET Core, ASP.NET MVC, Web API, REST API Design (RESTful), Entity Framework Core (EF Core), Dapper, LINQ
Data	SQL Server, PostgreSQL, MySQL, Redis, Database Design, Stored Procedures, Query Optimization, Indexing
Security & engineering	Keycloak, JWT, OAuth 2.0, OpenID Connect, Claims, RBAC, OOP, SOLID, Design Patterns, Dependency Injection, Repository Pattern, Clean Architecture, Microservices, Message Queues, RabbitMQ, Polly, FluentValidation, Debugging, Performance Optimization
Testing & DevOps	Unit Testing, Integration Testing, Logging, Observability, Docker, CI/CD, GitHub Actions, IIS, Azure, AWS, Git, Git Flow, Swagger/OpenAPI
Frontend	Angular, AngularJS, TypeScript, JavaScript, RxJS, React, HTML5, CSS3, Tailwind CSS
AI-assisted dev	LLMs, Prompt Engineering, Custom GPTs, MCP, AI Agents, Claude, Cursor, GitHub Copilot, n8n, OpenClaw, Agent Skills
Other stacks	Python, FastAPI, Node.js, Java Spring Boot, Agile/Scrum, Code Review, Technical Documentation, Problem Solving, Cross-team Collaboration, Communication

EDUCATION — **University of Information Technology (UIT), VNU-HCM** · Information Technology · Graduated 2026

LANGUAGES — **English** Good reading and writing (technical documents); basic spoken communication
